Salvation Army, Manchester

Upgrade AV systems and install new control system

Brief

To upgrade the current worship AV system. To distribute video from the AV room to the main hall, secondary hall and reception. To distribute audio throughout the building, proving localised volume control. To install a feedback projector for stage area. To upgrade the main projection systems, replace all cabling and improve image and sound quality. To refurbish the AV room and install a new control system to control all audio and video sources and switching. To add Freeview TV to the system.

Solution

A complete system upgrade as per requirements. Installation and configuration of a Philips Pronto control solution to control all devices. New cabling, speakers and hanging condenser microphones. AV over cat5e network to distribute high quality video throughout the building.
