

## Conway Centre Disco Installation

We were asked to redevelop the disco room to give it a night club feel. Following the removal of the existing false wall, a new custom designed DJ booth was installed. This now houses all of the audio equipment (amps, karaoke, mixing desk) supplied by CTS as well as a 42" HD Ready display for karaoke.

Professional lighting was then installed, controlled from the DJ booth lighting control unit as well as by the sound from the 4 x Mackie S215, speakers which were wall mounted. With a mixture of LED and traditional lighting units, combined with a motorized mirror ball, the effect is amazing.
